

**University of Florida  
College of Medicine  
Department of Epidemiology & Health Policy Research**

**PHC 6063 Biostatistics Consulting**

Time: 1:55pm, Fridays

Location: Room 5235, CTRB

Credits: 3 credits

Instructor: Myron Chang, PhD  
Professor  
Room 5240, CTRB

**COURSE DESCRIPTION**

This course covers communication, management, organization, computation, and thinking skills necessary to consulting in biostatistics.

**TESTS**

No midterm or final exam will be required in this course.

**ASSIGNMENTS**

Projects will be assigned. Attendance and active participation in all class discussions is required, and will be evaluated as part of the student's grade for the course. Students must read the required readings prior to each class session. A final project will be assigned in the last week of the class.

**EVALUATION AND GRADING**

Grades will be based on projects (25%); attendance and leading and participation in discussions (25%); and the final project (50%).
