

## **Faculty Biostatistician**

**Department of Population and Data Sciences and Simmons Comprehensive Cancer Center**

**University of Texas Southwestern Medical Center, Dallas, TX**

The Department of Population and Data Sciences and the NCI designated Harold C. Simmons Comprehensive Cancer Center at the University of Texas Southwestern Medical Center is seeking candidates for a faculty biostatistician, the academic rank will be determined by the qualifications of the candidate.

Candidates must have a PhD in biostatistics, statistics, or a closely related field as evidenced by professional experience and accomplishments that include innovative contributions to peer-reviewed publications, obtainment or active participation in peer-reviewed research funding, successful teaching interactive and thought-provoking coursework at the graduate level, and involvement on academic/institutional committees. The candidate must have excellent interpersonal and communication style essential for developing and building collaborative research projects, advanced expertise in research design and methodology are required. Candidates with experience in statistical applications in cancer clinical trials, population-based cancer research, working experience in a Cancer Center, and record of extramural grant support are highly preferred.

Applicants should submit a letter of application including statement of current and future research interest, curriculum vitae, and names and contact information of three references. Electronic applications are preferred and sent to Dr. Celette Skinner in care of [Suzette.Boese@UTSouthwestern.edu](mailto:Suzette.Boese@UTSouthwestern.edu).

UT Southwestern is an Affirmative Action/Equal Opportunity Employer. Women, minorities, veterans and individuals with disabilities are encouraged to apply.
