General Information: Department of Biostatistics, Indiana University Richard M. Fairbanks School of Public Health (FSPH), has an opening for a mid to senior level faculty to serve as Director of Education. The Department is seeking qualified candidates to fill the position, which offers an attractive opportunity for individuals who are interested in directing and improving innovative educational programs in biostatistics and data science.

The Department of Biostatistics is located on the health science campus of Indiana University, in the city of Indianapolis. The campus consists of four health-related professional schools, including Medicine, Nursing, Dentistry, and Public Health. The campus is the focal point of health science education at Indiana University. Indiana University School of Medicine (IUSM) is the largest medical school in the United States and is consistently ranked among the top medical schools in the nation by US News & World Report.

The Department is affiliated with both FSPH and IUSM and currently has 17 faculty members, 23 Ph.D. students, and 39 professional staff. Faculty, staff, and students in the Department engage in a tripartite mission of methodological research, graduate education, and collaborative service. The Department has MS and Ph.D. programs in Biostatistics, a BS program in Health Data Science, an extensive portfolio of research funding as principal investigators and co-investigators that includes collaborative research with all departments in the Schools of Medicine and Public Health as well as Dentistry and Nursing. With access to leading medical researchers, a large hospital network, and numerous NIH funded projects, the Department offers outstanding opportunities for students and career growth for faculty, especially for candidates who are interested in pursuing innovative educational and methodological research within the context of cutting-edge biomedical sciences. Additional details of the Department can be found at: https://fsph.iupui.edu/about/departments/biostatistics/index.html and https://medicine.iu.edu/departments/biostatistics/.

Indianapolis consistently ranks high nationally on the “best places to live” lists and has an economy that is growing in the life sciences arena. In addition, it has always been one of the cities with the lowest cost of living. Carmel, Fishers, and Zionsville, Indy’s northern neighbors, were recently named among the best mid-sized cities in the country.

Duties and Responsibilities: Department of Biostatistics invites applications for tenure-track faculty positions with the rank commensurate with applicant’s qualifications. Duties and responsibilities include coordination of all educational programs of the Department, teaching and student advising, methodological research and collaborative research. Successful candidates will have ample opportunities to pursue their own research interests. Experience administering academic programs and teaching is a plus.

Position Qualifications: Ph.D. degree in Biostatistics or Statistics or Ph.D. in Data Science or Computer Science with experience in education. Successful candidates are expected to have excellent written and oral communication skills. Indiana University is an Equal Opportunity/ Affirmative Action employer. Applications from historically underrepresented group members, veterans, and persons with disabilities are encouraged.
Salary Range and Benefits: We offer competitive salaries with excellent benefits. Department funds will be made available for professional travel and startup costs (computer, software, books, etc.) within University guidelines.

Application: The position is immediately open, with flexible starting dates. The search will continue until the position is filled.

All applications must be submitted through the Indiana University Human Resources portal: http://indiana.peopleadmin.com/postings/8582
Applications should include curriculum vitae, research statement, teaching statement, and three letters of reference (sent by the reviewers).

Indiana University is an EEO/AA employer, M/F/D.
